

# TERRA-GRID E® 35+

Terra-Grid E® 35+ is an innovative upgrade of the proven Terra-Grid E® 35, featuring a high-strength grey Big Marker separation plate. This advanced system enables installation without extensive groundwork, making it the ideal solution for low-bearing capacity substrates.

Upgrade your ground reinforcement solution with Terra-Grid E® 35+ – the next level of efficiency, durability, and ease of installation.

## KEY PROPERTIES

- No deep excavation required
- Rapid installation
- Immediate usability
- Dual locking system for secure connection
- Optimized weight distribution
- High flexibility
- Natural drainage to prevent water buildup
- Made from eco-friendly materials
