

The transport boxes combine functionality and quality, ensuring you can always transport and store your ground protection mats safely and efficiently.

Our transport and storage boxes are designed to make work easier and more efficient. Made of galvanized steel, they ensure maximum durability and long service life even under tough conditions. The boxes are tailored for the transport and storage of DAN-Board ground protection mats and are available in various sizes.

With their smart side reinforcement and stackable design, you save space both during transport and in storage. Functionality and strength go hand in hand – an ideal solution for those seeking easy handling and optimal protection for their ground protection mats.

High Quality

Made of galvanized steel for maximum durability and long service life – even under demanding conditions.

Flexible Sizes

Available in different sizes to meet individual needs.

Space-Saving Design

Stackable boxes make it easy to optimize space during transport and storage.

Side Reinforcement

Provides extra stability and ensures your ground protection mats stay in place.

Efficiency and Strength

Designed for easy handling and optimal protection.
