## Opening Hours

Monday-thursday: 08:00 – 15:00.

Friday: 08:00 – 12:00.

Saturday: Closed.

Sunday: Closed.

**TERRA-GRID E® 35**

**Installation Guide**

## STEP 1

The grass should be trimmed as short as possible prior to installation.

(If installing on soil, skip this step)

## STEP 4

Use a plate vibrator or drum compactor to push the E35 into the ground.

(When using a drum compactor, drive onto the E35 at an angle. Straight on could lead to the connections being broken between the places E35)

## STEP 2

If the soil is hard and dry, water the installation area to soften up the soil.

(Ensure the soil is soft enough to allow a finger to sink 4–5 cm into it before installation.)

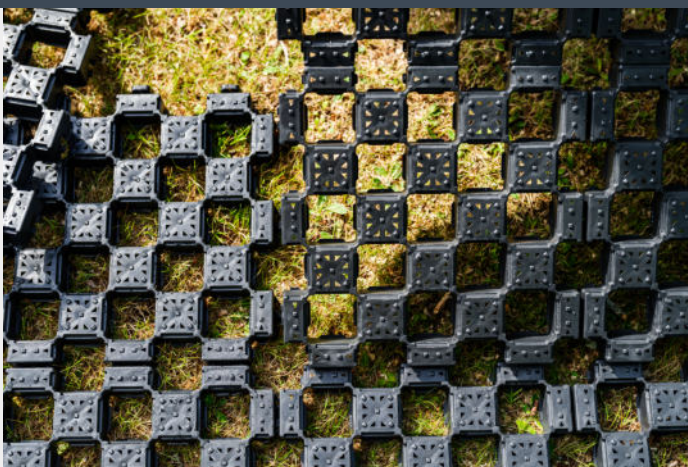

## STEP 5 (Optional)

Install your big or small markers.

## STEP 3

Place and connect the preconnected sheets of E35 on the designated area.

## STEP 6

Enjoy your new

- Parking area
- Access roads
- Airstrip
